# The Facebook "Seduction Sniper" Sequence Introduction

By Maurice Jackson & Dean Cortez

When it comes to meeting women, people often use fishing as an analogy. You put the right bait on the hook, cast your line into the sea, and wait to see if you get any bites.

When you get rejected or blown off by a chick, friends will console you by saying, "there are plenty of fish in the sea."

Well, I say *screw* fishing! (It always bored the shit out of me, anyway.)

Why? Because fishing is a *passive* activity. You can't see what's going on beneath the water's surface. If the fish aren't biting that day, you ain't catching anything.

Your equipment doesn't matter.

Your "fishing skills" don't matter.

Even your experience doesn't matter one lick.

If the fish aren't coming around, you will not succeed.

This is why I prefer to use *hunting* as an analogy. Hunting is proactive; you head out with your rifle and gear, and track down your targets.

Now imagine you're holding a GPS device that shows you the EXACT location of every possible target, and you're wielding a laser-guided, high-powered sniper rifle...with *heat-seeking bullets!*

Okay, I know there isn't such a thing as heat-seeking bullets (yet), but that *would* be pretty cool...

Anyway, this is what it's like when you know how to use the **Facebook Seduction Sniper Sequence**.

It gives you an *unfair tactical advantage* over every other guy who's hoping to meet women online, or is just trying to get attention from pretty girls.

No longer will you be at the mercy of women who decide if you're good enough for them. Instead, you'll be the prize that women seek to pursue and win over.

My name is **Maurice Jackson** and I'm a personal friend (and former student) of Dean Cortez, one of the creators of the Facebook Seduction System. I was one of the early testers of the system, which I've used myself to hook up with dozens of hot girls.

*So I can tell you from my own experience, this shit rocks!*

The Facebook Seduction System lays out a complete blueprint for becoming wildly successful with women on the world's most popular social networking site. Having used and experimented with these methods for over a year now, I came up with a way to boil it down to its essence, so that you can start seducing the women of your choice *immediately*.

With Dean's blessing and guidance, I put together this handy guide which explains how to use my "Sniper" method in only three steps.

Here's a short summary of what it consists of:

### 1) Step 1: Bait & Reel

- a) Add Her As A friend
- b) Open her with either:
  - i) Facebook statuses
  - ii) Private Messages

### 2) Step 2: Build Rapport

- a) Transition to talking about interesting topic to do with dating.
- b) Use "Best Transition Message Ever"
- c) Use "Follow Up Transition Messages"
- d) Use "Copy & Paste" Seduction Routines
  - i) Use "Would You Rather" Game
  - ii) Use "5 Lies" Game
  - iii) Use "Call Back Humor"
  - iv) Give her nicknames
  - v) Use "Role Playing and Plotlines"

### 3) Step 3: Escalate & Close

- a) Phase 1 - Planting Seeds
- b) Phase 2 - Close her for:
  - i) her number
  - ii) sex

## ***Step1. Bait & Reel***

The idea is to get girls on Facebook chasing after you. What you do not want to do is to act like one of those desperate loser guys that are constantly pursuing women.

That's NOT the aim of the FB Seduction System and it's not what we teach!

Remember, you are the one that women want, desire and crave for. You are the one that chooses your targets and you're the one that gets to decide who you want to have sex with.

This process will begin in one of two ways: either you know the girl and she's on your friends list, or she's not.

### ***If she's NOT on your friends list already***

If she's not on your friends list, then you can use one of the many methods mentioned above to befriend them. You can play games with them, add them because they are friends of friends, meet them through online dating sites or whatever method you desire

Remember, in order for women to want to accept you, she's going to have to look at your profile. So if you haven't already, I suggest you take another look at the detailed guide in the previous chapter about creating a Chick Magnet Profile.

If you're adding the girl through your "mutual friends" list, you want to see who she talks to and communicates the most with. Each time she posts something you should get a Facebook update advising you of her interaction.

What you want to do is then use a good opener to engage in a conversation with her. It'd be best if you use personal jokes that only your friends would understand. If you're worried about what to say in the first message, then just check out the "copy and paste" openers that have been field tested and proven to work which we have already compiled for you later in this chapter.

### ***If she's on your friends list already***

This is where you should use a combination of personal messages and Facebook statuses to bait her interest in you.

Generally speaking, unless you have an insanely awesome profile, after she adds you she's going to forget about who you are. So this is why you need to test her

and bait her. You want to see if she bites, once she does all you need to do is reel her in.

Normally once she adds you as a friend you should be the one that messages her first. It's very unlikely she's going to initiate the conversation with you, but if she does you can simply skip the opening phase that is discussed in this section and move onto step 2 to learn how to build rapport.

## ***How do you bait (open) a girl for the first time?***

Remember, first impressions matter, so you want to give the target the idea that you're a high status male with everything going on in your life. You're fun, cool and have an awesome personality and everyone (including men) want to hang out with you.

### **Bait her using Facebook Statuses**

So that's why with your status updates, you want to convey something along those lines. We have compiled a massive list of status updates that really stand out and are designed specifically for women to "bite". Just check out the Facebook Status Update section below and swipe them as you wish.

### **Bait her using private messages**

Here are some good openers that make you stand out because you're not like the average guy that's going to send something stupid like "hey, you're cute". For each of these openers I'll break down the theory behind why they work so that you get a general idea of what's a good opener.

As a general rule of thumb you want your openers to be short and concise. Attractive women on Facebook get A LOT of messages from random guys and it's very unlikely she's going to want to read or respond to a long message for the first time if she doesn't know you. They simply don't have the time for that!

The idea of an opener is to get her to respond. That is it. Once she responds you want to immediately transition the conversation to something that relates to dating and the possibility of the two of you finally getting together.

That's why the following openers are "under the radar" they seem innocent and sweet, but in reality there's a deadly hook hidden within them. Just like how a fisherman dangles a worm that hides a sharp hook in front of fish. The fish only see the delicious bait, but once they bite they get helplessly reeled in.

### **Opener 1 - The Warning...**

**Subject:** WARNING

**You:** Hey, I just added you and there's something you should know. Seriously if you don't stop doing that right now I'm going to have to report you to the FB User Base Protection Department....

*With this opener you play on both her fear of authority and at the same time spike her curiosity. She'll definitely want to know what she's doing seriously wrong so that she won't get in trouble so it's very likely she'll respond.*

**Her:** Doing what?

**You:** Being so insanely cute and making me click through your photos. :P I made you worried for a second didn't I? haha Are you always this gullible? I'm going to call you silly Sally from now on... lol

*As you can see, since you made the situation sound extremely serious, she won't see your compliment that's cleverly disguised as a warning to be "supplicating". In fact, she'll be relieved and taken back by your sense of humor. Notice in the message itself you're starting a role playing theme and planting seeds in her mind that you're both humorous fun and witty.*

## **Opener 2 - It's Hard Isn't It?**

**Subject:** Hey, I totally know where you're coming from

**You:** Hey, I had a quick look through your profile and DAMN it must be really hard for you isn't it? I know EXACTLY where you're coming from! It's hard for me too!

*In this message you're also pressing her "curiosity" button because she'll be thinking "what's so hard"? Also, you're coming across as a sympathetic guy that seems to understand her problem, but it's about something she has no idea about. That's why she's bound to respond.*

**Her:** Hard for me what?

**You:** Hard for you find someone that suits you completely. I bet most guys who message you don't even bother reading your profile and say something generic like "wow you're cute" or "hi" or something boring. I get random chicks doing the same to me too! So I understand how annoying it is!

*Here, you explain to her that you understand the life of a "hot chick" on Facebook. By doing that you immediately stand out from the other chumps by describing to her in detail what they do, because women do the same to you. This makes you look like a man that's desired by other women and immediately makes you that much more attractive in her eyes.*

## **Opener 3 - The Test...**

**You:** Hey, you look either SUPER interesting or INSANELY weird. I'm not sure which one. But I do know one thing. I want to know if you can tell me the the mistake you see in my message:

1, 2, 3, 4, 5, 6, 7, 8, 9 10

Can you tell me what's the mistake?

[the mistake is "the the" but 95% of the time she'll be focusing on the issue that she thinks is wrong with 1 to 10].

*With this opener, you start with a back-handed compliment. You are applying the concepts of push pull and on top of that you're incorporated a mini quiz. If you didn't know already, girls love taking useless quizzes for some reason. It's like chick crack. So you immediately set up a challenge to an easy quiz and spike her curiosity and desire to respond.*

#### **Opener 4 - DEEP Trouble**

**You:** Hey, I was looking through your profile, and seriously you need to REALLY be careful because you might end up in some DEEP trouble.

Or

**You:** Hey, I was looking through your profile, and seriously you need to tell your loved ones how much you love them because your safety is in jeopardy.

*This opener is similar to Opener 1 where you make her worried and curious at the same time. So chances are she'll be wanting to know what her problem is.*

**Her:** Huh? What do you mean?

**You:** Didn't you hear? Aliens are looking to abduct good looking people like us, so you better tell your loved ones how much you love them before you get abducted.

I made you totally worried for a second didn't I? :P

*Here your response would be unexpected in a humorous way. You made it initially sound like she'd be in a lot of trouble but instead in the end it was a joke. Also you said "good looking people like us" which implies that you're a confident guy and you have a good sense of humor. You also then end it with a "I totally got you" line in the end where you poke fun at her for being so gullible in a friendly way.*

For more openers that have been field tested and proven to work, check out the resources section later in this chapter.

Remember, once they read your initial message and actually respond, it's much more acceptable for you to start writing longer messages to her that won't be

ignored. Once she responds to you, regardless of her response, that's all you need before you move to step 2 where you start building rapport.

### Common mistakes that guys make when trying to Bait & Reel their target:

1. Not knowing that the point of an opener is just to open a conversation and catch her attention. Instead they dwell on the boring topic created by the opener.
2. Sending an opener that is way too long. At this point, she doesn't know you and doesn't want to know you. Why should she spend extra time reading long messages from a creepy stranger?
3. Sending a boring generic opener. If you find yourself sending stupid shit like "hi" or "hey there" or "you're cute". Please stop. This is not conducive to your ultimate goal.
4. Sending a great opener, but have no idea how to follow up and reel her in. This ends up in a boring and dull conversation.
5. Making it obvious that he is already worshipping the target as more than "just a hot chick" and saying things like "oh you're so gorgeous, I wish I could date you sometime" or something supplicating like that. Remember, at this point she has done NOTHING to be worthy of any compliment you are giving her. She was simply lucky to be blessed with sexy genes. It's not something she's achieved, so if you keep going on about it, you're immediately conveying to her that you've never seen a hot girl in your life and you're a desperate freak that she should avoid.

## **Step 2. Build Rapport**

As long as you get a response, you're ready to start the "getting to know" you process. If you've made it this far, then congratulations 80% of the guys that message the girls you'll be contacting won't even get a response from her.

What you want to do is quickly make her feel as if she has known you for a long time. Someone that she can let her guard down around and a person whom she can share a true connection with.

The pre-requisite into getting into any woman's pants is to get into her mind first. You have to first seduce what's between her ears before she'll let you spread her legs.

The fastest and most efficient way to build rapport is by simply sharing secrets and appearing "vulnerable" in their presence. Once the two of you share a few conversations about issues that you wouldn't normally discuss with other people, then it will appear as if you the two of you have a real connection where the interaction will no longer be superficial and it'll be much more genuine.

However, when you do this you want to make sure you don't come across as being "too friendly" and focus on building just an emotional connection. Remember your ultimate goal is to get into her pants.

So don't get placed in the "friends zone". The most effective way to stay out of the friends zone whilst getting to know her at the same time is flirt with her!

Don't be a chump and a "nice guy" who avoids topics that relate to sex and dating, because if you do at the start and want to bring it up later on, it's going to be awkward for the both of you.

You want to set the precedent at the start that you're a sexual creature who also understands that she is a human being with emotions that you can relate to.

So how do you go about doing this?

You ask the right questions of course!

What you do NOT want to do is end up getting stuck talking about stupid shit that won't result in you getting laid. You need to TRANSITION and start building rapport and "upping the ante" to make it sexual immediately. But you need to do this gradually.

For example, once you open her with an opener, and she responds, do not dwell on that topic of the opener unless it's going to get you laid!

Here's a conversation that you should avoid. Yes, this is an actual conversation script that I found in the seduction forums where the guy ended up NOT getting anywhere. Once you read his conversation you'll understand why:

**Opener:** Do you like milk with ice?

**Her:** why?

*GREAT THIS GUY GOT PAST THE 1st Message! He got a response, but he should have stopped there and transitioned into discussing about something more interesting. Do not be like him and keep talking about boring shit like “milk with ice” because it’s not going to help you get laid.*

**Him:** Just wondering.

**Her:** yes and no

**Him:** So I guess it depends?

**Her:** how cold the fridge is

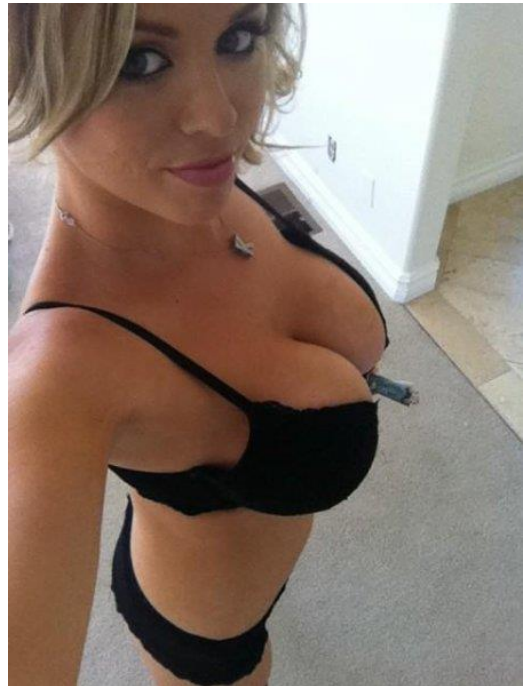

**Her:** Haha.

**Him:** Brownies, with or without nuts?

**Her:** with

**Him:** and marhmellows on top?

**Her:** sounds yummy.

As you can probably guess the conversation ended up going nowhere because this guy kept talking about stupid boring stuff that related to his opener. Remember the goal of the opener is to simply get her attention. If the opener you use does not provide a good transition for you to start dating about dating and relationships with her, then TRANSITION into a discussion that will.

If you keep your conversations about plutonic and lame things like milk and ice, then you’re going to end up with the same responses this guy got. He got one word responses from the girl who’s basically doing as little as she can to remain polite and not blow him off.

So what’s the best way to transition?

Use the “Best Transition Message Ever”.

### Best Transition Message Ever:

“Blah blah blah. Anyways, I noticed you don’t have many pictures of guys in your album. I’m guessing you’re still searching for “the one”, has he Facebook messaged you yet? “

As you can see, once you ask her this question you set yourself up to shoot off a series of questions that will get the girl emotionally invested in the conversation much more.

You can also then challenge her with more leading questions so she’ll start opening up to you and start talking about her past relationships, her ex’s and then eventually sexual topics.

If you do this, then there’s no way you’ll ever be placed in the “Friends Zone” because girls simply do not talk to guys who she deems as “just a friend” about the topics I just mentioned.

Here’s a great example of an actual conversation on Facebook between a guy and a girl:

**You:** You voted...must have jagoed after a cup of Tata Tea... too bad I am a coffee person =P

**Her:** do i kno u???

**Me:** Yes, I am the private detective your daddy hired to keep an eye on you.

**Her:** watever...

**Me:** Ok dorky, we have a common friend if you haven't noticed. No prizes for guessing who she is! You look adorably dorky in that profile pic of yours.

Notice how the guy immediately implemented the role playing theme and started to tease and play games with the girl immediately. Even though the girl wasn’t receptive at first, he didn’t let that phase him and he continued to poke fun at her in a flirtatious manner.

Even though at the start she pretended she wasn’t interested, eventually he wore down her “bitch shield” which would set him up perfectly to use the Best Transition Message Ever which is:

Blah blah blah. Anyways, I noticed you don’t have many pictures of guys in your album. I’m guessing you’re still searching for “the one”, has he Facebook messaged you yet? “

## How To Deal With The “Bitch Shield”

When you first message a girl on Facebook for the first time, chances are she’s either going to be friendly or a bitch.

If she’s friendly, you can immediately implement the “Best Transition Message Ever” and it’ll be easy from then on.

But what if she’s being difficult?

For example, she might give you a shit test, the most common of which is: “do I know you” or when you ask her a question, she’ll respond with “why”. In these instances she’s testing you to see if you’re like all the other chumps who added her, she wants to know if you’re MAN enough to handle her.

That’s why you have to be prepared to play her game and beat her at it.

Check out the Seduction Resources below for a list of the common shit tests a girl will give you and smooth ways to respond.

## Follow Up Transition Messages

The following messages are designed to qualify and challenge your target, but also make her open up to you whilst giving you more information about what kind of person she is.

- **You:** How would you know if you found “the one”?
- **You:** What would he look like?
- **You:** What do you look for in a guy?
- **You:** Describe in detail your ideal man.

The more you can get her to keep talking about the subject the matter. This is because she’s not going to talk about this to guys she’s not interested in dating. So if she opens up to you it means automatically you’re in her “maybe to date possibilities” book and not just a “normal friend”.

What you want to do is have her elaborate in detail.

Some girls give you short non specific answers like “I want a nice guy”. When she gives you shitty and boring answers you need to know it’s a shit test in disguise. So that’s when you need to let her know that you’re not like every other chump and go along with it and call her on her bullshit, but in a flirtatious manner.

For example:

**You:** What do you look for in a guy?

**Her:** A nice guy

*The average chump at this point would continue the conversation like this:*

**You:** oh ok.

**Her:** yeah...

*You don't want to do that, and you want to ask her more open ended questions about this. You want to keep prodding this topic, because she'll start to share with you personal beliefs that she rarely shares with other people and you'll create a special bond in her heart.*

*The smooth operator would continue like this instead:*

**You:** What's treating you good? Like he buys you candy and gives you flowers? Tell me in detail, because I can find "nice guys" everywhere. Hey in fact, my 65 year old neighbor is pretty nice. He always says hi to me when he waters his garden.

**Her:** Haha... lol! No what I mean is blah blah blah (and elaborate in more detail).

Once you get her to open up and invest in the interaction more, you'll slowly but surely start standing out in her mind as a potential sexual candidate.

Once you have established in her mind that you're NOT just a friend, you need to entertain her and be interesting enough to stand out amongst the other guys.

The idea is to plant seeds in her mind that you're a person that she can connect to in all areas of her life so that the two of you were "meant to be". You want to find everything about her as soon as you can, because the faster you do, the easier it is to implement a number close or a date (with sex at the end).

Here are a few routines, methods or gimmicks that you can use to achieve your goal:

### 1. **What Would you rather Game**

This is one of the best games to play with a girl to build rapport very quickly. It's designed for her to also engage and interact in the conversation so she'll have to end up asking you a lot of questions too. To find out how the game is played, please look in the Seduction Resources below.

### 2. **5 Lies Game**

Please see the Seduction Resources below.

### 3. **Use Callback Humor** - Callback humor is another way to remind her that the two of you share something special that no one else knows about.

Please see the Seduction Resources below.

### 4. **Give Her Nicknames** - The easiest way to create a special bond between the two of you is by giving her a special nickname. Something cute and playful is ideal. For example:

- Dork
- Piggy
- Monkey
- Brat

The best kind of nicknames have call back humor embedded in them. So make sure during the "Would You Rather" game you find out something about her so you can use as call back humour and also give her a nickname at the same time.

### 5. **Role Playing and plotlines** - you want to be perceived by her that you know her much better than anyone else. That means you'll need to have "inside jokes" that only the two of you get.

Role playing and plotlines are perfect for this, check out the Seduction Resources section below to see how this is played in detail.

### 6. **Make her prove herself to you** - You want to get her to believe that you're into her not just because of her looks, but what she's really like as a person. You want her to prove to you that she is in fact special and different than other girls out there.

That's why your tone of voice must always be challenging, playful and dominant. You don't want to give her compliments that she didn't earn and even in the rare occasions where she does do something that's

worthy of a positive compliment, give it in a back handed way. For example:

**You:** wow, that's the smartest thing I've heard you say all day monkey! If you keep this up you might eventually evolve to a human! :P

As you can see your compliment can almost be taken as a positive insult. So she'll have no idea whether to say thank you or be frustrated at your cheekiness.

You'll constantly be applying a "push/pull" seduction strategy if you keep this up and you'll stand out like most other guys who do nothing but bow at her feet and praise her for being so gorgeous.

### The most common problem guys get when trying to build rapport is:

What if she keeps giving you shitty one word answers and refuses to engage in an interesting conversation?

This is when you call her out on her bullshit directly and say something like:

**You:** Listen, you seem like an interesting person in your profile, so I wanted to get to know you more. I'm not interested in playing the "yes" or "no" game, do you normally talk like this in real life? Because, damn your friends must hate you :P

Or

**You:** Wow, you're not an easy person to get to know are you? You don't like talking to new people I take it?

Or

**You:** Oh man, are you like this to EVERYONE? I hope you're not one of those girls who gives out one word answers and expects to cruise along in a conversation just based on your looks.

Normally after you say something like that, she'll lower her defensive bitch shield and be more interesting.

However, if after giving her multiple opportunities to open up and she's still refusing to invest in the conversation, then you either:

1. Call her out one more time on her bullshit
2. Eject from the conversation and ignore her after

When you call her out again for her boring responses, you have to be more firm this time.

Say something like this:

**Her:** [one word answer again]

**You:** This is exactly what I'm talking about. You're definitely not on my level. I guess you're one of those girls who give boring ass answers, pity because I was hoping you'd be more than a pretty face. I'm going to do something else now.

There are many reasons why girls don't respond with more enthusiasm. Sometimes they are bored, sometimes they are busy talking to too many guys at one time, other times they are just plain old boring individuals.

Whatever the case may be, if the interaction with her feels like a strain for you, do yourself a favor and LEAVE!

There are plenty more hotter women with better personalities who won't bore you to death and waste your time. Remember, you're a high status male with women literally begging at your feet, you don't have time for this nonsense so don't put up with it.

## **Step 3. Escalate & Close**

There are two kinds of escalation & close depending on what phase of seduction you're in. However, both of them follow the same pattern, this is a simple two phase process.

- Phase 1 - Planting seeds
- Phase 2 - Escalating to close for either:
  - her number
  - sex

### **Phase 1 - Planting Seeds**

What you want to do is let her know well in advanced what your intentions are. But you don't want to be obvious about it, you want to hint to her that you are going to more than just Facebook friends and that you're going to end up having sex with her.

If you completed "Step 2 - Build Rapport" as described earlier properly then the seeds would be firmly implanted in her mind already that you're going to get her number eventually and have sex with her.

In the event that you haven't built up enough rapport, this is where the seed planting element of this step is CRITICAL. If you miss this then you're not going to get her number or end up having sex with her.

So what do you need to do to plant seeds in her mind?

The secret to leading ANY conversation to the "sex" category is to test the waters and slowly, but surely introduce the idea to see how receptive she is to it. If she plays along and doesn't mind, then you gradually up the ante and make it more and more overtly sexual.

That's where the carefully crafted and selected seduction routines that appear in the seduction resources section will come in. All you need to do is "copy and paste" these games and get her to play them with you and you'll set her up for a sexual interaction much later.

### **Phase 2 - Escalating for her number:**

Getting a girl's phone number is pretty straight forward, you simply ask for it after you have built up enough rapport in "Step 2 - Build Rapport". The "Would You Rather" number close as explained above is very effective in this situation.

However if for some reason you were unable to pull that off, check out the Seduction Resources for other ways you can close her and get the phone number.

### *What if she refuses to give you her number?*

However, sometimes you meet girls that play hard to get and refuse to give you their number. They will throw a shit test at you to see if you're really man enough to get her number.

In those cases you just act like "the man" and respond with something like this:

**You:** Oh that's cute, but you know, you're only suppose to play hard to get AFTER we meet, not before right? So cute! So give me your number first, then you can start playing that game after!

### **Phase 3 - Escalating to sex:**

When you want to escalate to sex the best way to do is it through the use of innuendo and comments that allude to something more of a sexual nature. The trick here is to hint at something sexually, but then if she picks up on it, call her out and accuse her of being the pervert and corrupted one that is trying to seduce you.

If you turn the role around, and tell her that she's the active pursuer, this not only creates hilariously entertaining conversations, but also lets her know that you're a sexual man who is comfortable with talking about sex. And you're not only just talking about sex, you're talking about sex WITH HER!

At every opportunity you get, see if you can throw in something sexual and see how she responds.

If she responds negatively then you're either being crude with the way you come across or she's not the type of girl you want to hang out with because she has no sense of humor.

Think about this, if she can't take a joke about sex she's probably not going to want to have sex with you anytime soon. That's why this is the fastest and most efficient way to weed out girls who are going to waste your time.

**Her:** Blah blah... so she exacerbated the problem even more!

**You:** Wow, that's a big word there! Which dictionary did you get that from?

**Her:** what?

**You:** Huh? Oh shit, I just typed in a "k" where I shouldn't have. SEE WHAT HAPPENS WHEN I TALK TO YOU! You CORRUPT my innocent childlike soul! ☹

Once you reverse the traditional roles, I guarantee you will be putting her in a position that is not only confusing for her (since most guys are trying to seduce her), she'll also deny that she's interested in you sexually - but the both of you would be actively talking about having sex with each other, so that would go

against what she's talking about. This further amplifies the connection she'll have with!

For the complete list, check out the seduction resources section below.

### Women and Sex

Remember, you have to keep in mind that women are sexual beings and want sex just as much as men (if not more, since they have a clitoris, and the ONLY function of which is to give women orgasms).

However, most guys mess it up and don't take the time to get them into the mood. The seduction process for females is much more gradual, so you have to understand this and put extra effort into flipping on her "sex" buttons and turning the knobs into the right direction.

I have mentioned this before, but I'll do so again. If you do NOT escalate then you're 100% going to end up in the Friends Zone. Do not be shy about the fact that you find her sexually attractive. You're a heterosexual male and it's natural you'll want to have sex with other attractive females.

Don't be a "nice guy" who is too afraid to talk about sex and then wind up in the Friends Zone jerking off to internet porn. Just make sure when you do talk about sex be classy and use double meaning words. Sexual innuendo is awesome for this and make sure you stay away from using vulgar and overt language.

Always tease her and accuse her of the one trying to get into your pants.

## *Keep up your momentum*

You need to understand that keeping your momentum going is crucial to get girls into bed fast. Right timing is essential. Initially you don't want to be seen as the guy that's literally sitting at his computer the whole day WAITING for her to respond. So you can delay your responses the first few times.

But as soon as you get the chance to get her to chat to live online through a Facebook chat session, make sure you capitalize on this and make sure you build rapport with her as fast as you can.

Seducing women online is kind of like making fire. At the start you have to be patient and attentive, but once you have the flames burning, you can fan the heat with much less intensity and instead it'll start burning by itself as long as it has fuel.

## *Stay Away From Boring Messages*

I cannot stress this enough. Do not be like the average chumps out there who spam her inbox with stupid shit like "how are you".

If you do that you're going to be seen as an idiot and she won't give you a second chance. Although I have given you step by step instructions and messages that you can copy and paste eventually you're going to need to know how to construct your own seductive message.

A good idea is to use her curiosity against her and send something like "OMG... you're going to laugh so hard when you know what happened to me... it's so embarrassing!"

But make sure you only send these kind of messages after you have built enough rapport in step 2.

## *Do not sound needy*

Whatever you do, you want to give her the impression that you are a guy that gets a lot of attention from women. You don't want to convey any hint of "neediness". Sending her messages like:

- So we never had a chance to get that drink
- Who's that guy posting all over your wall
- Do you like me?

Will totally get you no where and will push her away from you. Instead, you want shift the focus OFF her and ONTO YOU! You can ask the exact same questions, but in a confident and alpha way like:

- Hey, I know you owe me a drink, stop being cheap and let's go on Saturday!
- Awww... your secret admirer is declaring his undying love for you again. You should totally date him. He seems nice 😊
- So let's go somewhere on the weekend where we do something naughty that your parents will hate me for!

### ***Not calibrating sexual escalation properly***

There are two major problems I see here that most guys encounter. Either they are:

- Too dirty too soon = creepy sleazebag
- Never talk about sex = end up in the Friends Zone

Ideally you want to be seen as a sexual mate and more than a friend, but not a creepy douchebag.

So what's the best way to calibrate?

Test the waters!

You should push the interaction into a sexual direction as much as possible and always blame her for it. If you move too quickly and makes her feel uncomfortable then you can always backtrack and just apologize. However, if you NEVER talked about sex and ended up in the Friends Zone, then it's going to be much tougher for you to get out of.

You want to slowly escalate the intensity of your dirty talk. Start by saying if she's naughty then you're going to have to punish her. If she plays along then talk about something even more raunchy. Like going back to your place and doing something her parents would not approve of. The trick here is to IMPLY something dirty, but never say it. For example:

**You:** we should totally go back to my place and do something your parents would totally not approve of.

**Her:** What? You're gross!

**You:** Huh? You told me your parents hated that you played games all the time. I was thinking of getting you back to my place to play with my Xbox. What were you thinking? GEEZ YOU ARE CORRUPTED!

You ALWAYS want to blame her for having a dirty mind and accusing her of trying to get you into bed.

**You:** Because we're on a need to know basis and I need to know.

#### Shit Test 2

**Her:** Who are you?

**You:** Yes, I'm the private detective your daddy hired me to keep an eye on you because you're naughty.

**You:** One of Santa's elves, I'm here to check if you're naughty or nice.

**You:** Prince Charming, duh?

**You:** Aren't you Steph? Damn, you look like her! I hope you're friendly like she is, she was one of my old childhood buddies and I couldn't believe it when I found her on FB again so I had to add you!

## Step 2: Build Rapport

- **You:** What would he look like?
- **You:** What do you look for in a guy?
- **You:** Describe in detail your ideal man.

### What Would you rather Game

This is one of the best games to play with a girl to build rapport very quickly. It’s designed for her to also engage and interact in the conversation so she’ll have to end up asking you a lot of questions too. To find out how the game is played, please look in the Seduction Resources below.

The game goes like this:

**You:** Hey, you seem pretty cool, let’s play a quick game so I can find out what kind of person you really are. It’s called “Would You Rather”. It’s pretty explanatory.

I’ll go first, would you rather being called cute or sexy and why?

**Her:** I like being called cute, because I think being sexy for a girl requires too much time and effort. I need to put on makeup and dress all pretty and act all girly, you know?

**You:** Wow, you’re smarter than you look! Ok, it’s your turn to ask me a question. Please no boring questions!

You want to continue this kind of dialogue back and forth for a while. Make sure you do NOT ask her boring as shit questions. You need to keep her interested and engaged.

Remember, to stay away from sexual questions at first. Except in the occasion where SHE brings it up first! Once she does that, she's giving you the green light to move onto step 3 to Escalate the interaction and close her.

One thing you should look out for when playing this game is to make sure you keep an eye out for information to give her both a nickname and provide you with enough callback humor material, we'll discuss the importance of each a bit later.

After asking each other 4 questions each, you should have created enough trust and comfort in your target to be able to close. This is where you escalate the interaction to getting her number (if you don't have it yet).

You ask her:

**You:** Would you rather give me your phone number now, so we can continue this game through text messages or have me beg for your number and continue this game through email which is horribly inefficient and totally lame. PS. I never beg for phone numbers. 😊

Most of the time you'll be able to get her number with no problem.

But there are instances where the girl is going to play hard to get and will refuse to give you her number. This is when you say:

**You:** Damn, too bad, I'm not going to beg for your number, so if you don't want to chat to me any more it's cool. There's no point in wasting both our times right? I hope this isn't the case though, because you're the first cute girl that has done a good job at making me laugh in a long time! 😊

After you get her number, the best thing is you'll never be wondering "what should I text her". All you need to do is continue asking her funny "would you rather" questions and you can keep the interaction going.

## 5 Lies Game

Before you play this game, you want to make sure you have played the “Would You Rather” game to make her feel comfortable with you.

After you do that, you can use this game to help you escalate your interaction to getting her out on a date.

The trick is to make a bet with a girl. If she loses then you make her to make a small investment on her part for your benefit, but in reality you really get her out on a one on one date. For example “if you lose this game, you’re going to owe me a sundae from McDonalds”.

However, she’ll only agree to this AFTER you’ve built up enough rapport and comfort, so make sure you do not skip the “Would You Rather” game mentioned above.

**You:** Let’s play a game, it’s called the 5 lies time. You have to lie to me straight in a row, 5 times. If you win I will buy you an awesome meal, as long as the meal consists of a sundae from McDonalds, if you lose, you’ll buy meal an awesome meal that consists of a sundae from McDonalds.

*As you can see, you’re request is very innocent. I mean you’re only asking for a sundae from her that costs less than a few dollars. But in reality, you’re disguising your true motive - that is getting her out with you on a date!*

**Her:** ok

**You:** Let’s start! What’s the color of the moon?

**Her:** Black.

**You:** What’s the color of the sun?

**Her:** Green.

(After two questions, pretend you're getting a message on your phone and interrupt the game, and say "hey, I got a text message, give me 30 seconds to respond")

**You:** So what question were we up to?

**Her:** Question 2 or 3

**You:** Haha you lost! You told me the truth!

(Note, if she passes question 3 or 4, you ask her. Wow you're so smart, have you played this game before? Normally she'll be like like "haha no never, first time". Then you say "haha you lost!")

Either way, no matter how you play the game whether you win or lose, you should have set yourself up for a date in the near future.

### Use Callback Humor

Callback humor is another way to remind her that the two of you share something special that no one else knows about.

Here are some examples of how to turn bits in your discussion into callback humor:

- **Scenario:** You find out that the both of you like playing basketball.
- **Turn it inside an inside joke:** "hey do you do know that being a bench warmer, technically isn't "playing basketball". But I guess the next time I need a towel, I'll know who to call. Just make sure you don't use my towel to wipe yourself!
- **Call back humor:** I'll refer to you as the towel boy!
- **Using call back humor:** next time you message her, or later on in the conversation you say something like "shoosh! If you keep that up I'm going to degrade you to JUST bench warmer, you're not even going to have the privilege to hand me towels"!
  
- **Scenario:** You find out that she loves Michael Jackson
- **Turn it inside an inside joke:** "OMG? I can't believe you were old enough to listen to his music. Admit it, you just love him because he grabs it crotch. You crotch grabber"!
- **Call back humor:** I'll refer to you as crotch grabber!
- **Using call back humor:** next time you message her, or later on in the conversation you say something like "you're such a perve! No wonder your friends call you crotch grabber"!
  
- **Scenario:** You find out that she hates Techno Music

- **Turn it inside an inside joke:** “You do know that Country music isn’t very popular in clubs right? But if you’re good I’ll ask the DJ to play Shania Twain just for you... as long as you promise to rave along to it”
- **Call back humor:** Glow stick hater
- **Using call back humor:** next time you message her, or later on in the conversation you say something like “hey, not everyone has had childhood trauma with glow sticks and ecstasy. You see normal people like us don’t use drugs and we didn’t confuse glow sticks as popsicles as a kid”.
- **Scenario:** You find out that she’s from a small town
- **Turn it inside an inside joke:** “Wow that’s awesome! I’d love to ride my horse to school every morning and feed chickens”!
- **Call back humor:** Country Bumpkin!
- **Using call back humor:** next time you message her, or later on in the conversation you say something like “hey isn’t it time for you to sleep? It’s like 7pm and you need to wake up at 3am to feed your chickens or they’ll get angry”.

### Role Playing and plotlines

You want to be perceived by her that you know her much better than anyone else. That means you’ll need to have “inside jokes” that only the two of you get.

Role playing and plotlines are perfect for this.

Plot lines are really quick way that increases the fun factor and your success rate when flirting is using a plot line when you first meet a girl on Facebook. The benefits of using a role-play is that it immediately puts you in a position where you have an inside joke between the two of you and places you a in position of rapport already.

Not only does it make you feel as if the two of you are more connected, it also makes an interesting inaction where you can ask her to do tasks for your pleasure, and if she fails, it gives you a premise to punish her. This is how you start the plot line

#### **Wanted: Personal Assistant**

Make sure you talk to her a little to build some rapport and attraction and then ask her if she’s good at organising things. Then say:

**You:** “hey you look like you’re kind of useful. I know what you could do for me. You can be my personal assistant and take bookings and appointments for me. But you have to make sure that you come on time at the office and you don’t dress too sexy, otherwise I’m going to have to deduct your pay.”

#### **Wanted: Personal Bodyguard**

Talk to her a little and ask what she would do if someone picks on her. Then say:

**You:** “cool, it sounds like you know you to take care of yourself. I am currently looking for a bodyguard at the moment. Make sure you’re good at protecting me from the mean girls who try to hurt me”

### **Wanted: Minister Of My Government**

Talk about what you would want to do if you have all the money in the world. Tell her that you’re going to take over a small African country and you need a minister to help you run it. Then you start interviewing her for the position.

**You:** Hey, I think I’m going to take over a small African country on the weekend. I need someone to help run it for me. What are your skills? You can be the minister for cooking and cleaning. That’d be perfect.

### **Wanted: Girlfriend for 5 minutes**

If the girl likes you enough then say:

**You:** Do you think you’re a good girlfriend? You know what, just for fun, for 5 minutes you can pretend to be my girlfriend.

If you find her not responding say: Okay, I’ll let you go now. You wasted 5 minutes of my precious time. But if she is good, you say: You’ve been doing good, I guess I can extend your role for another 5 more minutes. Congratulations!

The good thing about using this role play plot theme is that you can pretend to punish her by saying “oh you’re too boring, I’m going to break up with you” or if she says something really good you can say “wow, that’s awesome you get to be my girlfriend for 5 more minutes”. Then see how the interaction goes and you can grab her close of push her away depending on her answers to your questions.

### ***Step 3: Escalating & Closing***

#### **How To Get Her Phone Number**

**You:** Hey, I think you're funny, give me your number so we can text like normal people.

Or

**You:** If you want to take this awesome conversation to the "real world" put your number here.

Or

**You:** Hey, I just sprained my finger from typing so much. Give me let's switch to texting before I bounce, give me your number.

Or

**You:** Haha, you're funny you should text me. (I know she doesn't have my number yet)

**Her:** how do I do that? I don't have your number!

Normally if you use one of the above number closing routines, then you shouldn't have a problem getting her number. That's on the assumption that you have built enough rapport and comfort already.

#### **How To Escalate To Sex**

##### **Naughty**

- What are you doing? I bet you're doing something naughty aren't you?
- Stop being such a naughty girl and give me the answer I want or I'll have to spank you.

##### **Bad Girl Or Good Girl**

- Have you been a good girl or a bad girl? Because if you've been behaving, then let's hangout on Friday, otherwise I'm going to have to there to punish you.

##### **Something Your Parents Would Disapprove Of**

- What are we going to do? Of course we're going to do something that your

parents would disapprove of. I hope you are adventurous.

- Sounds good, you can set up (whatever) and if it's good you get a reward that will bring you pleasure. But if it's bad, then there a punishments!

### **Wake The Neighbours**

- Let's go and do something fun that will really piss off your neighbours.

### **Do ungodly things**

- I know that you're thinking of doing ungodly things to me right now, but please, it's not late enough in the day for you to be thinking like that.

### **Let your imagination run wild**

- Please, don't let your imagination run wild, I do not want to do what you're thinking of doing.

### **Snuggle together...more than just snuggling**

- Ok sure, if you're good, we can snuggle together, but make sure you do not do anything more than snuggling.

### **Let's cuddle together**

- We can go back to my place and just cuddle

### **Promise we'll only just snuggle and hold hands**

- Sure, we can go back to my house, but promise me we'll just snuggle and hold hands ok?

### **Do things that your ex bf would be jealous about**

- Let's annoy your ex and do things he'd be jealous about.

### **If it's good...then you get a reward**

- Cool, you said something really funny, so you get a reward that will bring you pleasure.

The following are lines that are much more direct, where you are actively telling the girl to not do something that would be perceived as coming onto you. These ones are my favorites.

- As long as you don't get any wrong ideas
- As long as you keep your hands to yourself
- As long as you don't rape me
- As long as you keep your pants on
- As long as you don't kiss me
- As long as you don't seduce me
- As long as you're a good girl
- As long as you give me a massage

The best thing about these lines that I listed above is that they can be changed, combined and customized to suit any occasion. You can increase the level of

sexual talk by being less subtle with your language, or vice versa.

Remember, anything she says should absolutely be turned into sexual innuendo and be used as much as possible. Here's a big list of things that you can mention innocently but in reality mean something else.

- Lips
- Mouth
- Skin
- Wet
- Slide/sliding
- Penetrate
- Enter
- Oral
- Hole
- Cavity
- Grasp
- Stroke
- Pound
- Hump
- Sticky
- Slippery
- Moist
- Steamy
- Up
- Hard
- Stiff
- Raw
- Thrust
- Hot
- Torque
- Flexible
- Grind
- BIG,
- Large,
- Huge,
- Soft,
- Supple,
- Poke/poking

Make sure when you DO talk about things that might actually be considered sexual, mention it in a cute and humorous way.

For example, if you're going to shower:

**You:** Hey, I'm going to get naked and change into my birthday suit before I shower. STOP THINKING ABOUT ME THAT WAY! Gosh, you ARE a pervert!

By constantly using "cute" terms, like "necked" or "birthday suit" or "in the buff" you get to gauge how receptive she is and whether or not she's open to you escalating the interaction.

### Sexual Innuendo Showdown

Another really ingenious way to turn the conversation into all about sex was described by T-Mal, he says this:

*"Challenge her to a "sexual innuendo showdown". Tell her to come up with her very best, most clever innuendo-laden message, & you two will compare them at whatever designated time you choose.*

*So, let's say you agree to check in at 2:00 on Friday afternoon.... then you'll both email your "masterpiece" to each other at the same time.*

*Here's what I sent for MY entry:*

*It's often a big and extremely hard challenge for most people to come to the realization that, "sexual innuendo" is truly an art form.*

*I however, being quite the cunning linguist, am very well endowed with a tremendous amount of knowledge in this area.*

*But nevertheless, my amazing oral talents are usually overlooked due to the fact that; so many people fail to grasp the intense verbal skills that magically roll off my slick, experienced tongue.*

*I'm certain you understand this concept because; you most likely have taken your own lickings in life and learned from them; as well as, benefitted greatly from each of those lessons.*

*That being said, it's quite obvious:*

*Through a disciplined course of intimate study, one can become fully aware that possessing a deep, penetrating understanding of such magnificent oral delights, can be the means to a very climatic finish!"*

The coolest thing about this is that you're able to talk about sex and turn her on without even needing to actually mention it outright.

So how do you play this game with her? Say this:

**You:** Let's play a game called "Sexual Innuendo Showdown". The rules are:

- a. You write one sentence, but the sentence itself must have two meanings, one sexual and one non sexual, for example "come here and ride this horse hard".
- b. you can't talk about sex directly.
- c. your sentence must make sense.
- d. The girl has to start first.

### Rules of Engagement

Another awesome routine to run on a girl that will guarantee you end up talking about sex is the "Rules of Engagement" routine, and it goes as follows:

**You:** Let's play a game, the rules are:

Rule 1- You can't ask the same question that was asked already.

Rule 2 - No question must be left unanswered no matter what.

Rule 3- The girl must always go first.

So you start off with something boring like "what's your favorite food".

The idea is to change the topic of the conversation to something sexual, but you got to start off innocently. So you have to ask boring questions, but you'll be able to immediately start asking something like "so what's your favorite position?". After you ask her, she can't ask you that question because of the rules!
